

HELICOPTER SERVICES

SLIDING SCALE HELICOPTER SERVICES DELIVERED BY THE BEST EX-MILITARY OPERATORS

INZPIRE'S HELICOPTER SERVICES TEAM IS COMPRISED OF HIGHLY REGARDED EX-MILITARY AIRCREW EQUIPPED WITH THE MOST CURRENT EXPERIENCE AND EXPERTISE, AND WITH THOUSANDS OF AMASSED FLYING HOURS BETWEEN THEM.

Bringing their combined knowledge and skills to every client across the military, paramilitary and civilian sectors, the agility and adaptability of Inzpire means that projects and services are always delivered on time and on budget.

From supplying manpower substitution for the military to servicing Military Regulated Civilian Owned requirements, Inzpire is able to provide true sliding-scale flexibility. Incorporating Helicopter Flying Instruction and Advanced Operational Flying Techniques, Helicopter Operations, bespoke Methods of Instruction Courses and Aircraft and Simulator Validation Services, Inzpire's Helicopter Services division offers outstanding capability across all sectors.

United Kingdom Apache Attack Helicopter Conversion to Type course at the Army Aviation Centre at Middle Wallop. Meeting the exacting standards of the UK Military translates directly to our approach with all clients, regardless of industry or sector.

HELICOPTER FLYING INSTRUCTION

Whilst Inzpire covers all aspects of military flying training, be it ground instruction, course design, synthetic flying training instruction or live flying, our depth of experience means we can and do deliver equally adaptable instruction for both paramilitary and civilian clients.

Flying training is an undeniably costly and time-hungry undertaking; therefore getting it right first time, every time, is the only route to success that Inzpire recognises. Testament to our philosophy is our provision of Qualified Helicopter Flying Instructors teaching all aspects of the

ADVANCED OPERATIONAL FLYING TECHNIQUES

Inzpire's Tactical Formation Flying Courses draw on years of experience in designing and teaching these expert proficiencies; whilst our first-hand knowledge of the steps required in interpreting electronic battlespace information and turning this into proven successful tactics, perfectly positions us to instruct in Electronic Warfare.

Inzpire aircrew are experts in the development of robust tactics to enable the helicopter to maintain the upper hand and our Advanced Weapons Courses approach this from the bottom up – helping military and paramilitary clients to analyse potential threats and devise tactics to exploit weakness. Helicopters rarely work in isolation and can be used more effectively as part of an integrated, multi-faceted, attack; as experts in maximising the potential for any weapon system Inzpire are able to offer advice and training in the complex arena of weapons employment.

RevolutionInDefence

SIMULATOR VALIDATION

The costs involved with the operation of modern complex helicopters naturally drives the majority of essential conversion and currency flying training to be completed in the synthetic environment. Inzpire offers specialist Test Pilot services to ensure that your synthetic training devices are delivered to a standard that ensures consistency with as well as a true representation of the live aircraft. The Inzpire team has already been entrusted with the validation of upgrades for the UK Apache simulators as well as the delivery standards for the UK Wildcat simulator project.

HELICOPTER OPERATIONS

Using only the most able and experienced ex-military operators equipped to work in the most high pressured of situations, Inzpire offers bespoke scalable solutions from full service- including aircraft, aircrew, engineering and operations support – to one or several constituent required parts. Able to effectively support military, paramilitary or civilian clients globally, Inzpire can deliver helicopter operations of any scale and for adaptable durations to meet our client's needs.

METHODS OF INSTRUCTION TRAINING

Budget and time pressures are often the biggest commercial drivers when clients select their flying training providers; Inzpire's adaptability and wealth of flying training experience means we deliver cost effective as well as commercially competitive Methods of Instruction Courses to meet exacting client needs. We also understand the importance of providing the same exceptionally high standards of ground school academic training, where all too often outdated methods of imparting knowledge fail to take into account the latest technology as well as cultural and language differences. Inzpire has the global experience to redress this imbalance and ensure complete continuity of instruction.

Inzpire's specialist and cost effective Helicopter Service solutions offer true sliding scale enhancements to any flying training regime or operational unit. **We are committed to working closely with clients from the military, paramilitary and civilian sectors to develop world leading Helicopter Services that get it right first time, every time.**
