

### **Inzpire Partners With Planet to Provide Advanced Military Training Support**

**7 FEB 2022:** Inzpire has entered in to a partnership with Planet Labs PBC (NYSE: PL), a leading provider of daily data and insights about Earth.

The partnership will allow both companies to better serve their long-standing customers by combining Planet's 'always-on' satellite dataset and Inzpire's advanced training methods.

With Planet data, Inzpire will be able to provide its customers and their businesses with even greater insight into their workflows by providing enhanced training in subjects ranging from border security, disasters, to advanced imagery analysis, and more; ultimately Planet and Inzpire will work together to build a more transparent world.

Inzpire's Intelligence and Cyber Division provides critical consultancy and training support to militaries and industries in the United Kingdom and overseas. The access provided through the partnership with Planet will be integrated into every aspect of Inzpire's intelligence and cyber training from lesson design to the delivery of exercises. This ability to provide operationally focused training, designed around customer-specific learning objectives and using the very latest imagery is a unique proposition and will help customers achieve their intelligence and cyber goals and objectives.

Inzpire has become an official enablement partner of Planet's which will allow Inzpire to deliver official Planet training developed and maintained by Planet experts, work with organizations around the world to develop intelligence tradecraft competency through in-depth learning experiences, and offer hands-on labs allowing learners to practice real-world scenarios. Inzpire's deep experience for training and enablement services will enable their customers in need of Earth Observation data, to develop competency with Planet imagery.

"We are thrilled to partner with Inzpire. Their heritage and expertise delivering services to military customers stands out in the market and I am excited to see how they will empower customers to use our unique, daily remote sensing capabilities to make the world a safer and more secure place," said Charlie Candy, Chief Revenue Officer of Planet.

"Here at Inzpire, we are delighted and extremely proud to partner with Planet - a company which we feel is helping to make the world a safer and more secure place and is highly innovative, just like us.

"Planet's superb daily remote sensing capabilities significantly add to our existing portfolio and enable us to offer our customers some very powerful solutions to their problems," said Hugh Griffiths, Inzpire Chief Executive Officer.

This partnership enables both companies to better serve their long-standing customers by introducing Planet's 'always-on' satellite dataset to Inzpire's advanced training methods. Planet believes that greater access to data about our changing world promotes health, safety, prosperity, and security. Together, Planet and Inzpire will work to build a more transparent world.

#### **About Planet**

Planet is a leading provider of global, daily satellite imagery and geospatial solutions. Planet is driven by a mission to image the world every day, and make change visible, accessible and actionable. Founded in 2010 by three NASA scientists, Planet designs, builds, and operates the largest Earth observation fleet of imaging satellites, capturing and compiling data from over 3 million images per day. Planet provides mission-critical data, advanced insights, and software solutions to over 700

customers, comprising the world's leading agriculture, forestry, intelligence, education and finance companies and government agencies, enabling users to simply and effectively derive unique value from satellite imagery. Planet is a public benefit corporation trading on the New York Stock Exchange as PL.
