

the truth. War may not have broken out between NATO and the Warsaw Pact forces but the war was fought throughout the globe and millions died. This display is that story of more than forty six years of conflict.

Start a rewarding career in science, technology, engineering and maths (STEM) with Inzpire

Inzpire is one of the fastest growing defence and security companies in the country. We pride ourselves on being different and we're always looking to add to our highly skilled and talented team.

//////

We're keen to hire enthusiastic individuals from all walks of life to bring fresh thinking to the way we work. By joining Inzpire, you could be involved in exciting and challenging projects including designing and delivering innovative products, services and training for military and civilian customers, both in the UK and abroad.

We have lots of opportunities for apprentices, interns, graduates and those looking for work experience or placements. So, if you're passionate about pursuing a career in STEM, we'd love to talk to you.

We can offer careers or experience in areas including:

- Computer science
- Cyber
- Information technology and exploitation
- Simulators and simulator training
- Systems engineering
- Uncrewed aerial systems

We recognise that a truly great company is only possible with great people

WHAT DOES INZPIRE DO?

Learn about the areas we cover and see where you could fit below.

MISSION SYSTEMS

We produce some of the best mission systems available. These are used by aircrew to plan, fly and debrief missions for a wide variety of aircraft types, from fast jets to helicopters.

MISSION TRAINING DEVICES

We design realistic simulators to help military personnel develop their skills. Our technology-loving team are experts in virtual reality. They combine virtual gaming worlds with real-world locations to create immersive training environments.

TRAINING SERVICES

We provide training analysis, design and development to clients worldwide as well as to our own employees. Our creative team design and deliver training in subjects such as uncrewed operations, intelligence, cyber and electronic warfare.

TECHNICAL SERVICES

We advise the UK Ministry of Defence and armed forces around the world on topics such as complex weapons, mission data, electronic warfare and technology.

WHY WORK FOR INZPIRE?

We recognise that a business can only keep its customers happy if its employees feel happy. That's why our employees always come first.

Our supportive and inclusive culture ensures our people are comfortable being their true self at work. We value every one of our team members and want them to thrive in both their career and personal life. This means plenty of opportunities and encouragement for professional development.

We also spend a lot of time developing initiatives and experiences to enhance the health and wellbeing of our people. We're big on flexible working and offer a fantastic variety of benefits including uncapped holiday allowance and private health and dental care.

By joining Inzpire you can be part of an amazing company!
