

OUR TRAINING COURSES

Inzpire's training experts can provide fully interactive, flexible training for both military and civilian customers on a wide range of subject areas.

AIR AND SPACE OPERATIONS

- Air Operations Mission Commander Training
- The Fundamentals of Air-Delivered Weapons
- Joint Battlespace Management
- Military Use of Space Capabilities
- The Senior Executives Space Introduction Course (SESIC)
- The Space Domain: Electronic Warfare (EW) and ISR
- The Space Domain: An Overview of Space-Based and Space-Enabled Capabilities
- The Space Domain: Planning and Operations

AIR-LAND INTEGRATION

- Joint Terminal Attack Controller and Continuation Training (JTAC-CT)
- Tactical Air Control Party (TACP) Course
- Joint Fires Observers (JFO) Course

INTELLIGENCE, SURVEILLANCE AND RECONNAISSANCE (ISR)

- Introduction to ISR
- ISR Fundamentals
- Joint ISR Practitioners Course
- Intelligence Requirements Management and Collection Management (IRMANDCM)
- Joint ISR Practitioners Course
- Tactical ISR Processing, Exploitation and Dissemination (PED) Operators Course

INTELLIGENCE, SURVEILLANCE AND RECONNAISSANCE (ISR) SENSORS

- Introduction to ISR Sensors
- ISR Sensor Operators Fundamentals
- Introduction to Synthetic Aperture RADAR (SAR) Imagery
- Introduction to Motion Imagery / Full Motion Video
- Airborne Maritime ISR Sensors
- ISR Sensor Planning

UNMANNED AIR OPERATIONS

- Introduction to Unmanned Air Systems (UAS) and Remotely Piloted Air Systems (RPAS)
- Unmanned Air Systems UAS and RPAS Fundamentals
- Unmanned Air Systems UAS and RPAS Tactics
- UAS and RPAS Mission Commanders Course
- Unmanned Air Systems UAS and RPAS Operational Concepts
- Unmanned Air Systems UAS and RPAS Sensors
- Line of Sight (LOS) UAS/RPAS Operations
- Beyond Visual Line of Sight (BVLOS) UAS/RPAS Operations
- Medium Altitude Long Endurance (MALE) UAS/RPAS Operations
- UAS/RPAS Support to Combat Operations
- UAS/RPAS Support to Civil Operations

TACTICAL HELICOPTER TRAINING

- Tactical Helicopter Operations
- Composite Air Operations (COMAO) - Supporting Helicopters

ADVANCED TECHNOLOGY ANALYSIS TRAINING

- ISR/ISTAR Technology
- Space Technology
- Missile Defence
- Radar Systems
- Electro-Optical Systems
- Telecommunications, Datalinks and Electronic Warfare Applications
- Weapons Systems Evaluation
- Radar Signal Processing
- Trials Design, Operation, Evaluation and Reporting
- Maths and Technology for Defence
- Statistics
- Advanced Mathematics: Mathematical Modelling for Defence System Analysis
- Advanced Mathematics: Decision Science

CYBER OPERATIONS

- Operating in a Cyber Environment
- Integration of Non-Kinetic Effects into Military Operations
- Development and Implementation of Cyber Strategy
- Senior Decision Makers Cyber Masterclass
- Introduction to Cyber Security and Resilience
- Advanced Cyber Security and Resilience

ELECTRONIC WARFARE (EW)

- Introduction to EW (5-day course)
- Introduction to EW Radio Frequency (RF)
- Introduction to EW Infrared (IR)
- EW (10-day course)
- Advanced EW
- Operational Electronic Intelligence (ELINT)
- Battlespace Spectrum Management (BSM)

INTELLIGENCE AND ANALYSIS

- Introduction to Intelligence
- Introduction to Intelligence Preparation of the Environment and Intelligence Estimate
- Intelligence Assessment and End Product Reporting
- Applied Intelligence (Air, Land or Maritime)
- Introduction to Physical and Personnel Security
- Mitigating the Insider Threat (Counter-Intelligence)
- Open Source Intelligence (Fundamentals) Course
- Open Source Intelligence (OSINT) Fundamentals
- Open Source Intelligence Practitioners Course
- Advanced Open Source Intelligence (OSINT) Practitioners Course
- Imagery Intelligence Fundamentals
- Imagery Intelligence Analysts Course
- Imagery Intelligence and Motion Imagery
- Motion Imagery Intelligence Analysis
- Introduction to Geospatial Intelligence (GEOINT)
- GEOINT Fundamentals
- Critical Thinking for Intelligence
- Propaganda and Information Operations for Military Objectives
- Collection Operations Management
- Building Resilience in the Workplace
- Insights Discovery

HUMAN FACTORS AND PERFORMANCE

- Airmanship and Human Factors Currency for Military Personnel
- Human Factors Foundation
- Airmanship and Human Factors for Student Aircrew (Introduction and Advanced Courses)
- Effective Briefing, Debriefing and Presenting
- Flying Authorisers Course
- Flying Supervisors Course
- Human Factors Facilitators Course
- Human Performance for Flying Instructors
- Leadership Academy for Businesses
- Stress Management
- Train the Trainer
- Team Working for Businesses
